

# ***What can YOU do?***

**Come to our meeting: We are holding a public meeting in  
Calver Village Hall on  
Tuesday 8th April 2008, at 7:30 p.m.**

The situation may be a bit clearer by then. You may also want to talk about the almost complete failure of the public authorities (who are paid for by our taxes) to act in this problem

- **HM Revenue & Customs has not collected any aggregates levy on the limestone sold.**
- **Health & Safety Executive has not taken any enforcement action over the unsafe public access at Backdale**
- **Derbyshire CC Highways has taken no enforcement action over the illegal diversion of Bramley Lane when the back face of Backdale “unexpectedly” collapsed**
- **Environment Agency has failed to take action over the lagoon leakages**

**Put the dates for 13-23 May Inquiry in your diary:** The presence of a large number of supporters at the Backdale Inquiry demonstrated the strength of public opinion on this issue and was noted by the media. We need at least the same support in May.

**We need some cash:** Although there are no big spends on the immediate horizon, we do need funds for the day-to-day running of the campaign – sending out news-letters etc. Funds will be running low soon, so please send us whatever you can - cheques payable to Save Longstone Edge, to

**Save Longstone Edge, PO Box 7341, BAKEWELL, DE45 9AP**

**We need time and expertise:** The campaign has been run for the past 11 years by a small and dedicated band who make up the Committee. Some of us are 11 years older, and some of us are just running out of time. We need more active people on the Committee, and/or helping in specialist areas such as legal advice, publicity, fund-raising, research, and organising supporters.

**Please write to:**

**Save Longstone Edge,**

**PO Box 7341**

**BAKEWELL, DE45 9AP**

**e-mail:**
